

PUBLIC NOTICE

PERMIT APPLICATION: NRS06.104

APPLICANT: Autumn Creek, LLC
1008 Lavergne Circle
Hendersonville, TN 37075
615-824-5323

LOCATION: unnamed tributary to Little Creek in Nashville, Davidson County
36.2811°N, 86.7903°W USGS Whites Creek (TN) Quadrangle

WATERSHED DESCRIPTION: The tributary has not been assessed. It is first order, intermittent. Surrounding land use is pastoral with residential and commercial development nearby (see attached satellite image).

This notice may also be viewed on the internet at the following site:
<http://www.state.tn.us/environment/wpc/ppo/arap>.

PROJECT DESCRIPTION: The proposed work is associated with commercial residential development. The applicant proposes to fill a small pond into which the tributary has previously been diverted. The stream would be relocated into a channel that approximates the location of the original channel that existed prior to diversion and impoundment. The original channel must be reconstructed. About 124 feet of the existing channel would be relocated into about 215 feet of new channel.

Additional alterations include installation of three road crossings (multi-plate arch bridges), two water line crossings and one sewer line crossing.

In accordance with the Tennessee Antidegradation Statement (Rule 1200-4-3-.06), the division has determined that the proposed activity will not result in degradation to water quality.

PERMIT COORDINATOR: Robert Baker

No decision has been made whether to issue or deny this permit. The purpose of this notice is to inform interested parties of this permit application and to ask for comments and information necessary to determine possible impacts to water quality. Persons wishing to comment on the proposal are invited to submit written comments to the department. Written comments must be received within **thirty days of the date that this notice is posted**. Comments will become part of the record and will be considered in the final decision. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the department hold a public hearing on this application. The request must be filed within the comment period, indicate the interest of the person requesting it, the reasons that the hearing is warranted, and the water quality issues being raised. When there is sufficient public interest in water quality issues, the department will hold a public hearing.

The permit application, supporting documentation including detailed plans and maps, and related comments are available at the department's address for review and/or copying. The department's address is:

Tennessee Department of Environment & Conservation
Division of Water Pollution Control, Natural Resources Section
7th Floor L & C Annex
401 Church Street
Nashville, TN 37243

In deciding whether to issue or deny a permit, the department will consider all comments of record and the requirements of applicable federal and state laws. In making this decision, a determination will be made regarding the lost value of the resource compared to the value of any proposed mitigation. The department shall consider practicable alternatives to the alteration. The department shall also consider loss of waters or habitat, diminishment in biological diversity, cumulative or secondary impacts to the water resource, and adverse impact to unique, high quality, or impaired waters.
